GEORGE THE THIRD, by the Grace of God, of Great Britain, France, and Ireland, King, Defender of the Faith, &c. To ALL TO WHOM these Presents shall come, WHEREAS our Royal Predecessor, King Edward IV., by certain Letters Patent, under the Great Seal of England, bearing date the 24th Day of February, in the first Year of his Reign, did at the Supplication of the Freemen of the Mystery of Barbers of the City of London, using the Mystery or Faculty of Surgery, grant to them, among other Things, that the said Mystery, and all the Men of the same Mystery of the said City, should be one Body and Perpetual Community, and that two Principals of the same Commonalty, of the most expert Men in the Mystery of Surgery, might, with the assent of twelve or eight Persons at the least, of the same Community, every Year elect and make out of the Community, two Masters, or Governors, being the most expert in the Mystery of Surgery, to oversee, rule, and govern, the Mystery and Commonalty aforesaid.

Recital of the Letters Patent of 1st Edward 4th;

incorporating the Freemen of the Mystery of Barbers of the City of London.

AND WHEREAS by an Act of Parliament, made and passed in the 32d Year of the late King Henry VIII. intituled for Barbers and Surgeons, after reciting, that, within the City of London, there were then two several and distinct Companies of Surgeons, occupying and exercising the Faculty of Surgery, one Company called the Barbers of London, and the other Company called the Surgeons of London. It was thereby enacted, That the said two several and distinct Companies of Surgeons should from thenceforth be united, and made one intire and whole Body Corporate, and one Commonalty Perpetual, which at all times thereafter should be called by the Name of the Masters or Governors of the Mystery and Commonalty of the Barbers and Surgeons of London; and by the same Name to implead and be impleaded before all manner of Justices, in all Courts, and in all manner of Suits.

Of the Act 32d Henry 8th.

By which the two Companies of Barbers of London, and Surgeons of London were united.

Of the Letters Patent of 5th Charles 1st.

AND WHEREAS, in and by certain Letters Patent, under the Great Seal of England, bearing Date the 15th Day of August, in the 5th Year of the Reign of His late Majesty, King Charles I., reciting that the Men of the same Companies enjoyed divers Liberties and Franchises within the City of London, the Suburbs and Liberties thereof, by virtue of divers Acts of Parliament, and divers Charters, and Letters Patent, His said Majesty did grant and confirm unto the said Masters and Governors of the Mystery and Commonalty aforesaid, and their Successors, all and singular the Manors, Messuages, Lands, Tenements, Customs, Liberties, Franchises, Immunities, Jurisdictions, and Hereditaments, whatsoever, which the Men of the said Companies then held, used, and enjoyed, by any lawful Means or Title whatsoever: And his said late Majesty did thereby give power to the said Corporation, to make annual Elections of Masters or Governors of the said Commonalty, whereof two to be Professors in the Art and Science of Surgery; and also to elect and constitute ten of the Freemen of the said Society to be Examiners of Surgeons in London.

Which confirmed to such united Company all the possessions, franchises and liberties which the said Company then held and enjoyed,

Recital of the Act of 18th of George 2d.

AND WHEREAS, by an Act of Parliament, made and passed in the 18th Year of the Reign of our late Royal Grandfather, King George II., intituled "An Act for making the Surgeons of London, and the Barbers of London, two separate and distinct Corporations," It was enacted, that the said Union and Incorporation of the Barbers and Surgeons of London, made and effected by the aforesaid Act of the 32d Year of King Henry VIII. should, from and after the 24th Day of June, 1745, be dissolved and declared void and of no effect; and that such of the Members of the said united Company who were Freemen of the said Company, and admitted and approved Surgeons, within the Rules of the said Company, and their Successors, should from thenceforth be made, and they were thereby made and constituted, a separate and distinct Body Corporate and Commonalty Perpetual, which at all times thereafter were to be called by the Name of Master, Governors and Commonalty of the Art and Science of Surgeons of London, and by the same Name might implead and be impleaded before all manner of Justices, in all Courts, and in all manner of Actions and Suits, and take to them and their Successors, Lands, Tenements, Rents, or Hereditaments, not exceeding the yearly Value of £200 in the whole.

by which the Union of the two Companies was dissolved;

and which constituted a distinct Company of Surgeons, by the Name of "The Master, Governors, and Commonalty of the Art and Science of Surgeons of London."

Recital that such Corporation was dissolved.

AND WHEREAS, we are informed that the said Corporation of Master, Governors, and Commonalty of the Art and Science of Surgeons of Lon-

don, hath become and now is dissolved: AND WHEREAS, it is of great consequence to the Commonweal of this Kingdom, that the Art and Science of Surgery should be duly promoted: AND WHEREAS, it appears to us, that the Establishment of a College of Surgeons will be expedient for the due promotion and encouragement of the Study and Practice of the said Art and Science, Now WE, of our special Grace and mere Motion, and at the humble Petition of JAMES EARLE, Esquire, the late Master, and divers other Members of the aforesaid late Corporation of Surgeons; have willed, ordained, constituted, declared, given and granted, and by these Presents, for Us, Our Heirs, and Successors, do will, ordain, constitute, and declare, give and grant; unto the aforesaid JAMES EARLE, and unto all the Members of the said late Company or Corporation of Master, Governors, and Commonalty of the Art and Science of Surgeons of London; having been admitted and approved Surgeons, within the Rules of the said Company; and also unto all such Persons, who upon, or since, the dissolution of the said Corporation, shall have obtained Letters Testimonial, under a Seal purporting to be the Seal of the said late dissolved Corporation, authorizing them to practise the Art and Science of Surgery; and they, from henceforth for ever hereafter, shall be and remain by virtue of these Presents, one Body Corporate and Politic; by the Name of THE ROYAL COLLEGE OF SURGEONS IN LONDON, and by the same Name shall and may have perpetual Succession, and a Common Seal; with power to break, alter, and make anew the said Seal, from time to time at their will and pleasure; and by the same Name shall and may implead, and be impleaded, before all manner of Justices, in all Courts, and in all manner of Actions and Suits; and shall be at all times for ever hereafter persons able and capable in Law to take, purchase, possess, hold, and enjoy, and shall and may take, purchase, possess, hold and enjoy, a Hall or Council-house, with its Appurtenances, situate within the Cities of London or Westminster, or within one Mile of either of them, for the use and purposes of the said College; and also any other Lands, Tenements, Rents, or Hereditaments, wheresoever situate, lying and being; not exceeding, together with the aforesaid Hall or Council-house, and its appurtenances, the yearly value of one thousand Pounds in the whole; without incurring any of the Penalties in any Statute of Mortmain, or any Thing, in any Statute of Mortmain, to the contrary notwithstanding.

That it is of great consequence that the Science of Surgery should be duly promoted,

and that a College will be expedient for the due encouragement thereof.

Therefore His Majesty was pleased to incorporate the Members of the late Company, and all such Persons who since the Dissolution thereof have obtained Letters Testimonial &c.

By the name of "The Royal College of Surgeons in London."

With perpetual succession and a common seal;

Proviso,—That the City of Lon-

THE COUNCIL.

The Council, the governing body of the College, consists of twenty-four Members, three* of whom go out in rotation annually in July, but are eligible for re-election by the Fellows of the College. All proceedings of the Court of Examiners, the Board of Examiners in Anatomy and Physiology, the Midwifery and Dental Boards, and the several Committees are reported to the Council for approval and confirmation. The Meetings of the Council are generally held in each month of the year, except in the month of September, and at such other times as the business of the College may require. During the past Collegiate Year there have been twelve Meetings.

* If in any year one of the three retiring Members be President of the College, he does not go out of office until the succeeding year.

THE BOARD OF EXAMINERS IN MIDWIFERY.

The Board consists of four Members annually elected, viz. :—The Chairman, one of the Vice-Presidents of the College, and three other Members, who are required to be elected either from the Fellows or Members of the College, or from the Fellows or Licentiates of the Royal College of Physicians of London. The Board conducts the Examination of Candidates for the Licence in Midwifery. *There have not been any appointments made during the last nine years, and the Examinations are suspended until further notice.*

BOARD OF EXAMINERS IN DENTAL SURGERY.

The Board consists of six Members elected by the Council for five years, viz. :—three Members of the Court of Examiners of the College, and three other persons skilled in Dental Surgery. The Board conducts the Examination of Candidates for the Diploma in Dental Surgery of the College. During the year there have been three Meetings of the Board, and thirty Candidates have been examined, twenty-two of whom obtained the Diploma.

THE SECRETARY'S REPORT.

THE Secretary's Report prepared in pursuance of the resolution of the Council of the 9th of December, 1880.

At the Ordinary Meeting of the Council on the 9th of August, 1883, the following Resolutions were adopted, viz. :—

That the Council hereby gives notice to the several Medical Authorities in England of its withdrawal from the Scheme for an Examining Board for England, dated the 1st of May 1877, which Scheme, although agreed to by those Authorities and approved and sanctioned by the General Medical Council, has never come into operation.

That notice of this withdrawal be also communicated to the General Medical Council.

The Honorary Medal of the College was unanimously awarded to Mr. Richard Owen, C.B., F.R.S., a Fellow of the College, in recognition of his very numerous and important contributions to Biological Science, and of the valuable services which he rendered to the College while he was Conservator of the Museum and Professor of Anatomy.

At this Meeting, on the motion of Mr. Erichsen, seconded by Mr. Cadge, the following Resolution was carried *nem. con.*, viz. :—

That it be referred to the Committee on the mode of voting for election to the Council to consider generally the Charters and Bye-Laws of the College, and to report to the Council whether in their opinion it is desirable that any, and if so what, alterations should be made therein.

At the Quarterly Meeting of the Council on 18th of October, 1883, the thanks of the Council were unanimously voted to Sir Erasmus Wilson, F.R.S., for his donation of Anatomical specimens to the Museum.

The following Memorandum prepared by the President in reference to the publication of a new Catalogue of the Library was directed to be entered on the Minutes, viz. :—

MEMORANDUM by the President relating to a proposed new complete Catalogue of the Library of the College.

As will be seen on referring to the College Calendar just ready for issue, the Library of the College contains at the present time 39,197 volumes, which comprise 15,353 independent works, and 39,753 tracts, pamphlets, essays, reports, and theses.

The Library is particularly rich in Periodicals and in the Transactions of learned Societies, no important series of that class of works being absent, and the sets of each being, almost without exception, complete—a condition hardly ever met with in large Public Libraries.

Human Anatomy, Comparative Anatomy, Physiology, Pathology, and Surgery are perfectly represented; Medicine is as fully represented as Surgery; whilst Midwifery and Pharmacy have been most assiduously cared for. Chemistry, Botany, and Zoology have been considered chiefly in their special relations to Medicine and Surgery.

Taken as a whole, the College Library is the most valuable Medical and Surgical Library available for consultation in the Metropolis; and, moreover, it is practically free to every member of the Profession.

It is now upwards of fifty years, that is in 1831, since the first complete Catalogue of its contents was printed, the Library then consisting of only about 11,000 volumes. At subsequent intervals, viz. in 1840, 1849, 1853, 1855, and 1860, five Supplementary Catalogues have been printed: the last of these, therefore, has been issued no less than twenty-two years since, that is, twice as long a period as the longest interval between the issue of any of the Supplementary Catalogues. During this period of twenty-two years between seven and eight thousand additions have been made to the Collection.

There is in the Library a complete *Press-Catalogue*, or, as it might be termed, an *Inventory*, in MS. of the Book Property of the College.

There is likewise, of course, a *Finding-Catalogue*, composed of the titles obtained from the original printed Catalogue and its several Supplements. Besides this, there is a *Supplementary Finding-Catalogue* in MS., containing the titles of the books added since the year 1860. Lastly, there exist two printed volumes of *Indices of Subjects*, but only coming down to the same remote date.

By means of the two Finding-Catalogues, the one printed and the other in MS., Readers who come for purposes of consultation or study can no doubt discover whether any particular work exists in the Collection, and where it is to be found in the book-cases; and, thus far, the immediate wants of Visitors are met, although the manuscript Finding-Catalogue is very troublesome to use, especially as regards pamphlets, theses, and essays. But it has long been felt that so valuable an accumulation of Medical, Surgical, and Scientific Literature in the possession of a public Institution like the College, and, by its rules, available for use only within its walls, should again, after the lapse of more than half a century, have its treasures recorded in one complete printed Catalogue.

With the view of bringing this subject before the Library Committee for its consideration, preparatory to its deciding on any recommendation to the Council,

I have obtained from our Librarian information as to the state of the materials for the formation of such a complete Catalogue, and of the nature of the assistance which he would require in its preparation and production. Communications have also been held, at my request, by the Secretary and the Librarian, with Messrs. Taylor and Francis, on the questions of the style and cost of setting up in type and printing a certain number of copies of the same.

First, it is satisfactory to find that the materials for the formation of a complete Catalogue are already in existence—partly in the Original and Supplementary Catalogues now in print, and partly in a series of separate MSS. slips, between seven and eight thousand in number, duly arranged in alphabetical order, and containing the titles of every work added to the Library during the twenty-two years which have elapsed since the printing of the last Supplementary Catalogue in 1860.

Secondly, it would appear that what might be termed the editorial supervision of the proposed new Catalogue would involve no extraordinary labour; for the titles now in print in the Original Catalogue were collated by the late Dr. Willis, and those in the Supplementary Catalogues by our present Librarian; whilst those yet in MSS., comprised in the seven or eight thousand slips already mentioned, have been carefully and deliberately prepared by Mr. Chatto as the respective works have been gradually added to the Library.

For the editing of a new Catalogue the Librarian would gladly become responsible, provided that he were liberated from some of the routine mechanical work of the Library, so that he could devote his time specially to the preparation and revision of the Catalogue, whilst still retaining a general superintendence of the daily transactions in the Library as heretofore. The precise manner of accomplishing this is, of course, a matter of detail which would require further consideration.

Thirdly, the cost of a new Catalogue, including the setting up and the printing and paper for 500 copies, may be learnt from Messrs. Taylor & Francis's Estimate. It will be seen that two modes of proceeding have been considered, in one of which an additional Supplementary Catalogue is alone contemplated, in the other an amalgamation of the existing printed Catalogues with the MSS. additions; but the difference in outlay between the more and the less complete plan does not appear to constitute a serious objection to the adoption of the more complete one.

Making allowance for certain extra expenses, the total cost of the new Catalogue might be £450, the payment of which sum would be spread over a year or more. It may be added, that it is now nearly twenty-three years (1860) since any similar expenditure has been demanded from the College funds.

It may here be observed, that whilst the possession of a Catalogue of a Lending Library is essential to its proper use and enjoyment by any individual member, so it is of importance that a much-occupied worker in our profession should be enabled, by means of a Catalogue of the College Collection (purchasable at a moderate price), to ascertain whether the Library contains any given work, periodical, or monograph, before making a long journey to the College itself, where alone he can consult it, and where he is now not certain to find it when he comes.

Independently, however, of considerations of utility to Readers, it is obvious that the College Library, with its 39,000 volumes, is worthy of the expense of a complete printed Catalogue: and that it is scarcely consistent with the character and dignity of the Institution to continue to have its Library unrepresented in

and by such a Catalogue, which would not only facilitate the actual and encourage the more frequent use of the Library itself, but would show to the Professional World at large the vast extent and value of the College Collection, might lead to interchanges with other Libraries, and would probably also attract donations of desiderata to its shelves.

JOHN MARSHALL, *President*.

4th October, 1883.

The Council thereupon resolved that a new complete Catalogue of the Library be printed, authorising the Library Committee to make arrangements for its publication in the manner proposed by the President in the foregoing Memorandum.

The President stated that, in pursuance of the terms of the Bradshaw Bequest, he proposed to undertake the delivery of the Bradshaw Lecture.

The following letter from Mr. Richard Owen, C.B., F.R.S., F.R.C.S., thanking the Council for having decreed to him the Honorary Medal of the College, was directed to be entered on the Minutes, viz. :—

Sheen Lodge, Richmond Park,
17th August, 1883.

MR. PRESIDENT,—

I have the honour and pleasure to acknowledge the reception of your obliging letter notifying to me that at a Meeting of the Council of the Royal College of Surgeons of England the Honorary Medal of the College was awarded to me by an unanimous vote.

My most respectful and grateful acknowledgments are due to the President and Council for this truly acceptable and encouraging mark of their approbation. But my obligations are greater and of longer standing.

To the College I owe the Appointments which have made the pursuits most congenial to my tastes a duty, and at the same time have supplied the best means and opportunities of fulfilling it.

In whatever degree, therefore, I may have contributed to the advancement of Biology, I can only regard myself as instrumental, in such measure, in carrying out the objects which the Royal College of Surgeons had in view in accepting the important trust of the Hunterian Museum, and which the College has ever since most strenuously promoted.

I have the honour to be, Mr. President,

Yours most faithfully and obliged,

RICHARD OWEN.

John Marshall, F.R.S.,

President of the Royal College of Surgeons of England.

At this Meeting a Petition, signed by nearly Four hundred Fellows of the College, in favour of the Fellows being allowed to vote by voting-papers, without the necessity of their personal presence at the College, at the Annual Election of Members of the Council, was read and referred to the consideration of the Committee appointed to consider the Mode of Election to the Council.

At the Ordinary Meeting of the Council on the 8th of November, 1883, the following First Report of the Committee on the Mode of Election to the Council and on other matters relating to the Charters and Bye-Laws of the College was approved, adopted, and directed to be entered on the Minutes *nem. con.*, viz. :—

THE VICE-PRESIDENTS.

The Committee appointed, on the 12th of July 1883, to consider and report to the Council on the following resolution, viz. :

“That it be referred to a Committee to consider and report to the Council whether it be expedient that at the Election of the Council the Fellows shall be allowed to vote either in person or by voting-papers, and if so, in what manner,”

have held three meetings, on the 11th, 25th, and 30th of October, 1883, and have agreed to the following as their First Report, viz. :—

The Committee, having fully considered the question referred to them in the foregoing resolution, recommend to the Council that the Fellows of the College should in future be allowed to vote at the Election of the Council either in person or by voting-papers transmitted to the Secretary, and that with that object steps should be taken to effect the necessary alterations in Section 15 of the Charter of the 7th Victoria (see page xxxix of the Calendar) and in Section IV. of the Bye-Laws (see page lvi of the Calendar).

The Committee adopted this recommendation at their first meeting on the 11th instant, and have since had under their consideration a Petition, in favour of this change in the mode of voting, signed by nearly four hundred Fellows of the College, which was referred to the Committee by the Council on the 18th instant.

The Committee reserve for a future Report the details relating to the necessary alterations in the Charter of the 7th Victoria and the Bye-Laws to carry out this recommendation, and also their opinion on the further question submitted to their consideration by the Council on the 9th of August last, viz. as to whether it is desirable that any, and if so what, alterations should be made generally in the Charters and Bye-Laws of the College.

JAMES PAGET,
Chairman.

30th October, 1883

At the Ordinary Meeting of the Council on the 13th of December, 1883, thanks were unanimously voted to the President, Mr. John Marshall, for his Bradshaw Lecture; and the following resolution, proposed by Sir James Paget, Bart., and seconded by Mr. Hutchinson, was carried *nem. con.* :—

That the President and Vice-Presidents be requested to take measures for the purpose of representing to H.M. Secretary of State for the Home Department that it is very desirable that, when the Public Prosecutor is moved to prosecute in cases involving questions concerning Medical or Surgical Practice, he should obtain the assistance of competent skilled advisers.

A letter was read from Mr. John Gay, resigning, owing to ill-health, his seat as a Member of the Council, and his resignation was accepted with an expression of regret at its cause.

At the Quarterly Meeting of the Council on the 10th of January, 1884, the following Second Report from the Committee on the Mode of Election to the Council and on other matters relating to the Charters and Bye-Laws of the College was approved, adopted, and directed to be entered on the Minutes, viz. :—

SECOND REPORT, dated the 27th of December, 1883, of the COMMITTEE on the MODE of ELECTION to the COUNCIL and on other Matters relating to the Charters and Bye-Laws of the College.

Members of the Committee.

MR. E. LUND.

SIR T. SPENCER WELLS, Bart.

MR. W. CADGE.

THE PRESIDENT.

THE VICE-PRESIDENTS.

The First Report of the Committee, dated the 30th of October 1883, having been approved and adopted by the Council on the 8th of November last, the Committee have subsequently held three meetings, on the 29th of November and on the 20th and 27th of December, 1883, and have agreed to the following as their Second Report to the Council, viz. :—

The Committee, having in their First Report confined their attention to the consideration of Section 15 of the Charter of the 7th Victoria, relating to the mode of election to the Council, have since fully considered the several Charters of the College, and have adopted the following recommendations to the Council, viz. :—

1. That, although certain Sections in the several Charters have become either obsolete or inoperative, it is inexpedient that any alterations should be made as to those Sections.

2. That no alterations are necessary in relation to the Charter of George III.

3. That the Sections of the Charter of George IV., page xxxi of the Calendar, which restrict the yearly value of the property in Lands or Rents to be held by the College to £2000, be altered so as to provide that such amount be increased to £10,000.

4. That Section 5 of the Charter of the 7th Victoria, page xxxv of the Calendar, be altered so as to provide that the conditions of admission to the Fellowship by Examination and the arrangements for the Examinations for the same, be in future determined by Resolutions of the Council, and not by Bye-Laws as required by such Section.

5. That in Section 7 of the Charter of the 7th Victoria, page xxxvi of the Calendar, the amount of the Fee payable for the Fellowship by Examination be omitted, leaving such amount to be provided for by Bye-Law.

6. That Sections 15 and 16 of the Charter of the 7th Victoria, page xxxix of the Calendar, be altered so as to provide that the mode of election to the Council may be by voting-papers as well as in person, the quorum of Fellows required to be present at the meeting for Election being omitted from such Sections, it being desirable that, in future, such quorum be determined by Bye-Law instead of by Charter.

7. That in Section 5 of the Charter of the 15th Victoria, pages xlvi and xlvii of the Calendar, the words beginning "and the Fee," &c., to the end of the Section be struck out, it being undesirable that any Fee should be paid by Members of twenty years' standing on election to the Fellowship.

8. That Section 17 of the Charter of the 15th Victoria, pages l and li of the Calendar, be abrogated, it being inexpedient to continue the Examinations for the Licence in Midwifery of the College.

9. And that Sections 1 and 2 of the Charter of the 23rd Victoria, page liii of the Calendar, be altered so as to provide that the number of Members of the Board of Examiners in Dental Surgery may, if thought desirable by the Council, be increased beyond six, the present number, and that the Section of the Board consisting of persons skilled in Dental Surgery be restricted to Dental Practitioners duly registered under the Dentists' Act of 1878.

The Committee reserve to a subsequent Report their further recommendations on the alterations in the Bye-Laws and Regulations of the College, which will be consequent on the approval by the proper Authorities of the proposed changes in the Charters, and also any other recommendations relating to the said Bye-Laws and Regulations which the Committee may consider necessary.

JAMES PAGET,
Chairman.

27th December, 1883.

At this Meeting the following resolution, on the motion of Mr. Erichsen, seconded by Mr. Holmes, was carried, viz. :—

That Section 14 of the Charter of the 7th Victoria, pages xxxviii and xxxix of the Calendar, relating to Substitute Members of the Council, be referred to the consideration of the Committee on the Mode of Election to the Council and on other matters relating to the Charters and Bye-Laws of the College, with directions to report thereon to the Council.

The hearty congratulations of the Council were unanimously voted to Sir Joseph Lister, Bart., on his receiving the honour of a Baronetcy from Her Majesty.

At the Ordinary Meeting of the Council on the 14th of February, 1884, the following Third Report from the Committee on the Mode of Election to the Council and on other matters relating to the Charters and Bye-Laws of the College was approved and adopted *nem. con.*, and directed to be entered on the Minutes, viz. :—

THIRD REPORT, dated the 4th of February, 1884, of the COMMITTEE on the MODE of ELECTION to the COUNCIL and on other Matters relating to the Charters and Bye-Laws of the College.

Members of the Committee.

MR. J. E. ERICHSEN.

MR. E. LUND.

MR. W. CADGE.

THE PRESIDENT.

THE VICE-PRESIDENTS.

The First and Second Reports of the Committee, dated the 30th of October and the 27th of December, 1883, respectively, having been approved and adopted by the Council, the Committee met on this date to consider the following resolution of the Council of the 10th of January last, viz. :

That Section 14 of the Charter of the 7th Victoria, pages xxxviii and xxxix of the Calendar, relating to Substitute Members of the Council, be referred to the consideration of the Committee on the Mode of Election to the Council and on other matters relating to the Charters and Bye-Laws of the College, with directions to report thereon to the Council,

and having considered the same, adopted the following as their Third Report to the Council, viz. :—

The Committee, having fully considered Section 14 of the Charter of the 7th Victoria, relating to Substitute Members of the Council, are of opinion that it is inexpedient that any alteration should be made therein.

4th February, 1884.

JOHN ERIC ERICHSEN,
In the Chair.

The President, Mr. John Marshall, was appointed as Representative of the College at the Medical Congress to be held at Copenhagen in August.

The President was also appointed to represent the College at the Tercentenary Celebration of the University of Edinburgh.

At this Meeting the following resolution, on the motion of Mr. Erichsen, seconded by Mr. Cadge, was carried unanimously, viz. :—

That, in accordance with Section XVIII. of the Bye-Laws, the President be requested to convene a meeting of the Fellows and Members of the College for the following purposes, viz. :

To report to the Fellows and Members the alterations in the Charters proposed by the Council, and to receive from them any suggestions or recommendations with respect to these or any other alterations in the Charters which they may have to offer for the consideration of the Council.

The President and Vice-Presidents were requested to consider and report to the Council on the necessary arrangements for the Meeting of Fellows and Members.

At the Ordinary Meeting of the Council on the 13th of March, 1884, the President, on behalf of himself and the Vice-Presidents, reported the following to be the arrangements agreed upon by them for the conduct of the business at the meeting of the Fellows and Members convened for Monday, the 24th instant, at 2 o'clock P.M., viz. :—

1. The President to take the Chair punctually at 2 o'clock P.M.
2. The President to call upon the Secretary to read the advertisement convening the meeting, and stating its purposes.
3. The President to state to the meeting that, in accordance with the terms of the advertisement, the Fellows and Members would be invited, in the first place to discuss seriatim the alterations in the Charters proposed by the Council and to make any suggestions or recommendations thereon which they may have to offer, and, secondly, to make any other suggestions or recommendations with reference to any further alterations in the Charters which they may think desirable.
4. The several suggestions and recommendations relating to the Charters proposed by Fellows and Members to be, in all cases, in writing, with the names of the mover and seconder appended thereto.
5. The alterations in the Charters proposed by the Council to be then read by the Secretary and discussed seriatim.
6. Any other suggestions or recommendations for alterations in the Charters, which may be proposed by the Fellows and Members, to be handed to the President, read by the Secretary, and discussed seriatim.

The following resolution was adopted on the recommendation of the President, viz. :—

That the President, as the Representative of the College in the

General Medical Council, be authorized and requested to present to that Council for its sanction, in the event of the Government Medical Act Amendment Bill, now before Parliament, not passing during the present Session, the Scheme, dated the 15th of February, 1883, under which the Royal College of Physicians of London and the Royal College of Surgeons of England propose to unite and cooperate under Section XIX. of the Medical Act (1858) in conducting Examinations required for the qualifications of Licentiate of the Royal College of Physicians of London and of Member of the Royal College of Surgeons of England.

At this Meeting the following letter from Mr. Flower, resigning his appointment as Conservator of the Museum, was read and directed to be entered on the Minutes, viz. :—

Royal College of Surgeons,
March 5th, 1884.

MR. PRESIDENT AND GENTLEMEN,

It is with much regret that I inform you that I shall be obliged, at the termination of the present quarter, to resign the office of Conservator of your Museum, which I have held for upwards of twenty-two years.

I have been appointed by the Trustees of the British Museum to the post of Superintendent of the Natural History Departments of their Collection, an office the importance of which has been considerably enhanced by the separation of those Departments from the old Museum, and their location in a new and distinct building at South Kensington. Although this appointment was unsought by myself, I feel that I ought not to decline the responsibilities of an office, the proper fulfilment of the duties of which may exercise a considerable influence upon the progress of the Natural History sciences in this country, although by so doing I am compelled to sever my connection with an institution with which it has for so long been my privilege to be associated. I beg to assure you, however, that the interest I have always felt in the Museum of the College will never be abated, and that I shall do all in my power to assist my successor in the proper discharge of his duties, and especially in remedying the many imperfections which still remain in the arrangement of the collection, of which I am, perhaps, more conscious than any one else.

I cannot formally take leave of you without adding that my association with the College has been in every way a most happy one for myself, especially as it has afforded me the great advantage of coming into close personal intimacy with all the ablest and best among the members of my profession. To the Council, individually and collectively, I shall always feel deeply grateful for the uniform kindness and support I have received from them. To my colleagues in other departments, and especially to your secretary, Mr. Trimmer, I beg to express my thanks for having on all occasions cordially assisted me in carrying out the work I have had most at heart; but it is especially to the warm co-operation and good feeling of all those who have worked with and under me in the Museum that any improvements that may have been effected in its condition during my tenure of office are mainly due.

I have the honour to remain,

Yours very faithfully,

W. H. FLOWER.

*To the President and Council of the
Royal College of Surgeons of England.*

Mr. Flower's resignation was formally accepted, and, on the motion of Sir James Paget, Bart., seconded by Mr. Erichsen, the following resolution was carried unanimously :—

That the Council hereby desire to express to Mr. William Henry Flower their deep regret at his resignation of the Office of Conservator of the Museum of the College.

That they thank him for the admirable care, judgment, and zeal with which for twenty-two years he has fulfilled the various and responsible duties of that office.

That they are glad to acknowledge that the great increase of the Museum during those years has been very largely due to his exertions and to the influence which he has exercised, not only on all who have worked with him, but amongst all who have been desirous to promote the progress of Anatomical Science.

That they know that, whilst he has increased the value and utility of the Museum by enlarging it, by preserving it in perfect order, and by facilitating the study of its contents, he has also maintained the scientific repute of the College by the numerous works which have gained for him a distinguished position amongst the Naturalists and Biologists of the present time.

And that, in thus placing on record their high appreciation of the services of Mr. Flower, the Council feel sure that they are expressing the opinion of all the Fellows and Members of the College, and that they all will unite with them in wishing him complete success and happiness in the important Office to which he has been elected.

At the Quarterly Meeting of the Council on the 9th of April, 1884, the following address of sympathy and condolence with Her Majesty and the Royal Family on the occasion of the death of His Royal Highness Prince Leopold, the Duke of Albany, was adopted unanimously :—

ROYAL COLLEGE OF SURGEONS OF ENGLAND.

THE Humble Address of the PRESIDENT, VICE-PRESIDENTS, and
COUNCIL of the Royal College of Surgeons of England,

TO

HER MOST EXCELLENT MAJESTY,

VICTORIA,

QUEEN OF GREAT BRITAIN AND IRELAND.

MAY IT PLEASE YOUR MAJESTY,

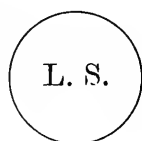

WE, the President, Vice-Presidents, and Council of the Royal College of Surgeons of England, venture to approach your Majesty, in order to express our

profound sorrow at the sad calamity which has fallen upon your Majesty and your Majesty's House, and which has filled the whole Nation with the deepest grief.

We deplore the loss to your Majesty of so beloved a Son, and to the Nation of so cultured and amiable a Prince; and we humbly offer to your Majesty our tribute of admiration to the high character and qualities of His Royal Highness the lamented Duke of Albany, and our heartfelt sympathy with your Majesty and your Majesty's Family in this great affliction.

We ask leave to express, through your Majesty, our sincere condolence with Her Royal Highness the Duchess of Albany in her overwhelming bereavement.

In witness whereof, we, your Majesty's loyal and dutiful subjects, have caused the Common Seal of the College to be hereunto affixed this 9th day of April, 1884.

The following Address of Congratulation to the University of Edinburgh in reference to the celebration of the completion of the Three-Hundredth year of its existence, was also unanimously adopted, viz:—

CONGRATULATORY ADDRESS
OF THE
ROYAL COLLEGE OF SURGEONS OF ENGLAND
TO THE
UNIVERSITY OF EDINBURGH
AT THE
TERCENTENARY CELEBRATION,

17th APRIL, 1884.

The PRESIDENT, VICE-PRESIDENTS, and COUNCIL of the Royal College of Surgeons of England hereby offer their warmest congratulations to the University of Edinburgh on its attaining the Three-Hundredth year of its existence.

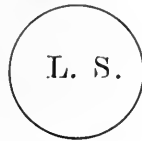

They avail themselves of this auspicious occasion to acknowledge the great public benefits rendered in the past by this ancient University, in the promotion of education, the encouragement of learning, and the cultivation of science.

They desire especially to accentuate their acknowledgement of the prominent position held by the University in whatever relates to the accumulation and diffusion of Medical and Surgical knowledge.

They trust that in the centuries to come the University of Edinburgh may, with other like Institutions, long pursue its honourable career and fulfil its high destiny.

Unanimously adopted at a Quarterly Meeting of the Council, 9th April, 1884, and ordered to be Sealed with the Common Seal of the College.

EDWARD TRIMMER,
Secretary.
FRED. G. HALLETT,
Assistant-Secretary.

JOHN MARSHALL, *President.*
JOHN COOPER FORSTER,
WM. SCOVELL SAVORY,
Vice-Presidents.

The President reported, with reference to the resolution of the Council of the 13th of December last, that he and the President of the Royal College of Physicians had had an interview with the Home Secretary to represent to him the desirability, when the Public Prosecutor is moved to prosecute in cases involving questions concerning Medical or Surgical Practice, of obtaining the assistance of competent skilled advisers, and that, as the result of that interview, he, the President, had received from Sir William Jenner, Bart., a letter dated the 25th ultimo addressed to him by Sir William V. Harcourt, stating the steps he had taken to secure the objects aimed at by the two Colleges.

The following copy of the letter from Sir William V. Harcourt was then read and directed to be entered on the Minutes, viz. :—

Home Office,
March 25, 1884.

My dear SIR WILLIAM JENNER,

I trust that the Confidential Papers which I have forwarded to you will satisfy you and Mr. Marshall that the important subject which you brought under my consideration at the interview of the 13th of March has been fully and carefully considered.

I have communicated with the Attorney-General and the Solicitor to the Treasury upon the subject; and you may rest satisfied that in all cases where a public prosecution is undertaken on the part of the Crown, care will be had that the advice of the most competent medical men is secured to prevent any injustice arising to members of your Profession.

Yours faithfully,
(Signed) W. V. HARCOURT.

The President reported the general result of the meeting of Fellows and Members on the 24th of March last; and his proposal that the consideration of the several suggestions and recommendations carried at the meeting should be deferred to the next meeting of the Council was adopted.

At this meeting the following letter from the President, reporting, as the representative of the College, the proceedings of the General Medical Council, was directed to be entered on the Minutes :—

To the Vice-Presidents and Council of the Royal College of Surgeons of England.

10 Savile Row,
9th April, 1884.

GENTLEMEN,

I have to report to you that, at the recent Session of the General Medical Council, the communication relating to the withdrawal of the College from the Scheme for a Conjoint Examining Board for England, dated the 1st of May 1877, was, after some discussion, received and entered on the Minutes of the General Medical Council.

On a subsequent occasion, the Scheme for constituting an Examining Board in England by the Royal College of Physicians of London and this College, bearing date February 1883, was received and entered on the Minutes.

In reference to obtaining the conditional sanction of the General Medical Council to this last-named Scheme, that is, in the event of the Government Medical Act Amendment Bill not passing in the present Session of Parliament, I have been precluded from carrying out the request of the Council of the College expressed in its resolution of the 13th of March last. On consulting with the representative of the Royal College of Physicians, it became evident that there were difficulties in the way of asking for even a conditional sanction of the Scheme; and, finally, after further consideration, my colleague expressed positively his inability to move for that sanction at the present time. Under these circumstances it was impossible for me to proceed.

It is quite understood, however, that should the Government Bill fail to become law, the Sanction of the General Medical Council to this Scheme between the two Royal Colleges will be asked for, and, as I believe, will be at once obtained at an early Session of that Council, to be held most probably in October next.

In a discussion on some of the details of the Medical Act Amendment Bill, it was pointed out that an inequitable transfer of the Surplus funds of the proposed Medical Boards to the Medical Council fund was contemplated by one clause of the Bill. In lieu of this, it was recommended that such surplus should remain at the disposal of the Medical Boards, and be employed in aid of the maintenance of the Medical Corporations acting under the new Law. It was further suggested that the Medical Corporations might with advantage address Her Majesty's Government on the subject. I would propose that this suggestion be acted upon.

JOHN MARSHALL.

In pursuance of the proposal contained in the foregoing letter the Council adopted the following resolution, viz.:—

That, as proposed by the President, the suggestion of the General Medical Council that the Medical Authorities should communicate with the Government on the subject of the disposal of the surplus Funds of the Medical Boards in the manner suggested by the General Medical Council rather than in that provided by the Medical Act Amendment Bill be adopted, and that it be referred to the President and Vice-Presidents to take such action in the matter, on behalf of the College, as they may think fit.

The thanks of the Council were unanimously voted to Mr. Marshall, the President, for his services as the Representative of the College in the General Medical Council.

At the Ordinary Meeting of the Council on the 8th of May, 1884, a letter was read from Sir Erasmus Wilson resigning, owing to ill-health, his seat as a Member of the Council; and his resignation having been formally accepted, on the motion of Sir James Paget, Bart., seconded by Dr. Humphry, the following resolution was unanimously adopted, viz. :—

That the Council learn with sincere regret that Sir Erasmus Wilson feels compelled by illness to resign his seat among them; and that they take this occasion to assure him of their hope that he may yet regain good health, and of their grateful recognition of his liberality to the College in his contributions to the Museum, in the endowment of the Pathological Curatorship, and in the foundation of the Professorship with which his name will always be associated and held in honour.

The following report from the President and Vice-Presidents in reference to a letter of the 7th of April last from Mr. John Tweedy, a Fellow of the College, was approved, adopted, and directed to be entered on the Minutes, viz. :—

The President and Vice-Presidents have to report to the Council that they have taken into consideration Mr. J. Tweedy's letter of the 7th of April last, calling the attention of the Council to Section 7 of the Charter of the 15th Victoria relating to Members of the Council who have ceased to be in the *bonâ fide* practice of the profession of a Surgeon, thereby ceasing to be Members of the Council, and suggesting that the Council should take action in the cases of two Members, who he alleges come within the description contained in such Section; and that, inasmuch as one of the two Members of the Council referred to by Mr. Tweedy has since resigned his office, and the other Member will retire by rotation in July next, the President and Vice-Presidents have not considered it necessary to make inquiries as to whether the Members of Council in question are or are not in the *bonâ fide* practice of a Surgeon; and they recommend to the Council that, in the circumstances, it is not necessary that any action should be taken under the above-mentioned Section of the Charter.

JOHN MARSHALL, *President*.

7th May, 1884.

At this Meeting the Council took into consideration the Report of the proceedings at the Meeting of the Fellows and Members of the College on the 24th of March, 1884, and having considered the several suggestions and recommendations contained therein, did not agree to the proposed alterations in the Charters, but adopted the following resolution, which can be acted upon without any alteration in the Charters, viz. :—

That an Annual Meeting of the Fellows and Members be called, at which a Report from the Council shall be presented.

A letter was read from Dr. J. Rogers and Mr. J. Wickham Barnes, requesting the Council to memorialize the Local Government Board and to petition the House of Commons, with a view to the permissive clauses in the Poor-Law Medical Officers' Superannuation Act of 1870 being made compulsory, and such letter was referred to the President and Vice-Presidents to take action therein on behalf of the Council.

On the motion of Sir James Paget, Bart., seconded by Mr. Erichsen, the following resolution was unanimously carried, viz. :—

That the Council desire to express to Dr. Arthur Farre their sincere thanks for the large collection of Drawings illustrative of Pathological Anatomy which he has presented to the Museum, and that they regard the collection as of great value, not only because of the accuracy and admirable execution of the several drawings, but because of their interest in the history of Pathological Science, and of one of its earliest and most distinguished Teachers.

The following resolution, moved by Mr. J. Cooper Forster and seconded by Mr. Heath, was also carried, viz. :—

That the presentation to the Council at the Quarterly Meeting in July of the Report from the Board of Examiners and the Court of Examiners of Candidates passed and rejected at the Primary and Pass Examinations for the Diploma of Member during the Collegiate year, and the consequent publication of such report, be discontinued; but that the statistics relating to such annual Return be still compiled for Collegiate purposes.

At the Ordinary Meeting of the Council on the 12th of June, 1884, the following letter addressed by the President and Vice-Presidents to the President of the Local Government Board on the subject of the grievances of the Poor-Law Medical Officers in reference to Superannuation Allowances was directed to be entered on the Minutes, viz. :—

Royal College of Surgeons of England,
Lincoln's Inn Fields, W.C.
11th day of June, 1884.

To the Right Honourable Sir Charles Dilke, Bart., &c. &c.

SIR,

The attention of the Council of the Royal College of Surgeons of England having been called by the Poor-Law Medical Officers' Association to the uncertain operation of the Act (33, 34 Vict. ch. 94, 1870) for providing Superannuation Allowance to the Poor-Law Medical Officers in England, We, the President and Vice-Presidents, acting on behalf of, and with the Authority of, the Council, desire to address the following representation on the subject to the Local Government Board.

The facts, that the *Expediency* of making provision for such Superannuation Allowance is recognized in the preamble of the Act in question,—that its first

Clause *legalizes* the application of funds derived from the local rates to such a purpose, and, lastly,—that the *conditions* under which such allowances may be granted are carefully defined in this, and in a preceding Act (27, 28 Vict. ch. 42, 1864), clearly show that the Legislature approves, in principle, the granting of such allowances to retired Poor-Law *Medical* Officers in a manner similar to that in force in regard to other Poor-Law Officers, and more or less corresponding with that which regulates the bestowal of pensions on Members of the Public Services generally.

But, inasmuch as the power given under the Act, to the Boards of Guardians and Boards of Management, may or may not be exercised *at their discretion*, the Act, it is alleged, has failed in practice, in certain instances, to accomplish its legitimate purpose, namely, that of making some provision for those who, after prolonged and efficient services, have become disabled by infirmity or age.

The Council is credibly informed that “Aged and indigent Members of the Profession, after holding office for periods varying from twenty to forty years, have been refused by the Board which they have faithfully served any Superannuation Allowances whatever. In some instances the refusal has been accompanied by an offer of the Workhouse or Out-door relief.”

In a recently reported case, the narrow spirit in which the Act is sometimes interpreted by Guardians is sufficiently obvious—a spirit which certainly frustrates the wise and just intentions of the Legislature.

The Council of the Royal College of Surgeons would, therefore, most earnestly press the consideration of this subject on the attention of the Local Government Board, and solicit its aid in remedying an obvious and serious hardship to certain Members of the Medical Profession.

The Council would venture to urge the Local Government Board to make full *inquiry* into the particulars of all cases in which refusals, on the part of Boards of Guardians or Boards of Management, to grant Superannuation Allowances to retired Medical Officers have taken place; and also to consider whether, by the issue of a *Memorandum*, founded on the results of such inquiry, some influence could be brought to bear upon Guardians or other like Authorities, to guide them in the just and expedient exercise of their function of granting those allowances, so that they may be bestowed in all cases, unless any grave cause of disqualification can be shown to exist.

In the event of this end being unattainable except by more stringent means or *compulsory Legislation*, the Council would ask the Local Government Board to intervene, so far as they can, to promote by such means as they may think fit the placing of Poor-Law Medical Officers, on their retirement or Superannuation after efficient and honourable service, under such *conditions* of *security* in respect to retiring allowances as now prevail in regard to Public Servants in the various Government Departments.

We have the Honour to be,

Sir,

Your obedient Servants,

(Signed)

JOHN MARSHALL, *President*.

EDWARD TRIMMER,

Secretary.

At this Meeting, on the motion of Mr. Holmes, seconded by Mr. T. Smith, the following resolution was carried *nem. con.*, viz. :—

That it be referred to the Nomination Committee to consider and report to the Council on the propriety of publishing a Schedule of the requirements of the College in the subject of Physiology, in accordance with the provisions of the Scheme, dated the 15th of February 1883, for constituting an Examining Board in England by the Royal College of Physicians of London and the Royal College of Surgeons of England.

At the Extraordinary Meeting of the Council on the 19th of June, 1884, Mr. Charles Stewart, a Member of the College and Curator of the Museum of St. Thomas' Hospital, was elected Conservator of the Museum of the College.

At the Quarterly Meeting of the Council on the 10th of July, 1884, thanks were unanimously voted to Sir Henry Thompson for the very valuable Collection of Calculi presented by him to the Museum, and Sir William James Erasmus Wilson, F.R.S., F.R.C.S., was put in nomination for the Honorary Medal of the College.

The following letter from Mr. W. J. Sendall, Assistant Secretary to the Local Government Board, in reply to the letter from the President and Vice-Presidents on the subject of the Poor-Law Medical Officers' Superannuation Act was read, and directed to be entered on the Minutes, viz. :—

Local Government Board,
Whitehall, S.W.
8th July, 1884.

*To John Marshall, Esq., F.R.S., President of the Royal College of Surgeons,
Lincoln's Inn Fields, W.C.*

SIR,

The Local Government Board have had under their consideration the representations contained in the letter which was addressed to them on the 12th ultimo, on behalf of the Council of the Royal College of Surgeons of England, relative to the conditions under which Superannuation Allowances may be granted to Poor-Law Medical Officers on their ceasing to hold office.

With reference to the suggestion in that letter that the Board should issue to Boards of Guardians a Memorandum on the subject, I am directed to state that the Board have no reason to doubt that the Guardians are fully aware of their powers with regard to the Superannuation of Poor Law Medical Officers; and that the Board therefore do not consider that they could usefully issue a Memorandum as suggested.

As regards the request that the Board would make inquiry into all cases in which Superannuation Allowances are refused to retired Poor-Law Medical Officers, I am directed to state that the Board do not, as a rule, receive from Boards of Guardians any notification of the refusal by them of an application for an allowance. The Board are always willing to bring under the attention of the

Guardians any representations made to them with reference to a case in which a Superannuation Allowance has been refused ; but they do not consider that they can intervene further with regard to the exercise by the Guardians of the discretionary power with which they are invested by the Statute.

I am directed to add that the Board are not prepared to submit to Parliament proposals for placing Poor-Law Medical Officers upon a footing, as regards the right to Superannuation, different from that of other Poor-Law Officers.

I am, Sir,

Your obedient Servant,

WALTER J. SENDALL,

Assistant Secretary.

At this Meeting a resolution was unanimously adopted removing from being a Member Mr. George Washington Evans, of 41 Cambridge Street, Hyde Park Square, owing to the advertisements and publications issued by him being considered by the Council, in the terms of Clause 2, Section XVII. of the Bye-Laws, to be "prejudicial to the interest" and "derogatory to the Honour of the College" and "disgraceful to the Profession of Surgery."

On the motion of Mr. Heath, seconded by Mr. Holmes, the following resolution was also carried *nem. con.* :—

That at the Ordinary Meeting of the Council in November next the Council do consider the mode of electing the President and any alterations suggested in the method of proceeding in the election.

EDWARD TRIMMER,

Secretary.

10th July, 1884.

THE MUSEUM.

THE Hunterian Collection, which forms the basis, and still a large proportion, of the contents of the present Museum of the Royal College of Surgeons of England, was originally arranged in a building which its Founder, John Hunter, erected for it in 1784, behind his house in Leicester Square.

John Hunter died October 16th, 1793, aged 65. By his will he directed the Museum to be offered in the first instance to the British Government, on such terms as might be considered reasonable, and in case of refusal to be sold in one lot, either to some foreign state, or as his executors might think proper.

In the year 1799 Parliament voted the sum of £15,000 for the Museum, and an offer of it being made to the Corporation of Surgeons, it was accepted on the terms proposed by Government*.

In 1806 the sum of £15,000 was voted by Parliament in aid of the erection of an edifice for the display and arrangement of the Hunterian Collection; a second grant of £12,500 was subsequently voted, and upwards of £21,000 having been supplied from the funds of the College, the building was completed in Lincoln's-Inn-Fields, in which the Museum was opened for the inspection of visitors in the year 1813.

* The following are the Terms and Conditions on which the Hunterian Collection, purchased by Parliament, was delivered to the late Corporation of Surgeons; which Corporation having become dissolved, the Members thereof were re-incorporated by Charter, dated the 22nd day of March, 1800, under the Title of The Royal College of Surgeons in London:—

1st. The Collection shall be open Four Hours in the Forenoon of two days every week for Inspection and Consultation of the Fellows of the College of Physicians, the Members of the Company of Surgeons and Persons properly introduced by them; a Catalogue of the Preparations, and a proper Person to explain it, being at those times always in the Room.

2nd. That one Course of Lectures, not less than twenty-four in number, on Comparative Anatomy and other subjects, illustrated by the Preparations, shall be given every year by some Member of the Company.

3rd. That the Preparations shall be kept in a state of Preservation, and the Collection in as perfect a state as possible, at the Expense of the Corporation of Surgeons, subject to the annual Inspection and Superintendence of the Trustees.

4th. That there shall be a Board of Trustees, to consist of sixteen (increased to seventeen by the Lords of the Treasury in 1856) Members, by virtue of their Public Offices, and of fourteen others, to be appointed, in the first instance, by the Lords of the Treasury, and afterwards to be elected, as Vacancies may happen, by a Majority of the remaining Trustees.

5th. That the Museum shall always be open for the Inspection of all or any of the said Trustees, who are to take care that the Corporation of Surgeons perform their Engagements respecting the said Collection. That a day be appointed for the annual Inspection of the Museum, by the Trustees acting collectively as a Board; and that they are also to have quarterly Meetings, for the transacting of any Business relative to the Museum, and for the filling up of such Vacancies as may happen in the number of the Trustees; and that the Corporation of Surgeons shall engage some Person to officiate as Secretary to the Board upon such occasions, and to issue previous Notice to the Members, in which he is to state particularly whether any Vacancies are to be filled up by new Elections.

In consequence of the large number of additions, this building became too small for the adequate display and arrangement of its contents; and more space being at the same time required for the rapidly increasing Library, the greater portion of the present building was erected, wholly at the expense of the College, in 1835, at a cost of about £40,000, and the Hunterian and Collegiate Collections were re-arranged in what are now termed the Western and Middle Museums, which were opened for the inspection of visitors in 1836.

Further enlargement of the building having become necessary by the continued increase of the Collection, the College, in 1847, purchased the extensive premises of Mr. Alderman Copeland, in Portugal Street, for the sum of £16,000, and in 1852 proceeded to the erection of the Eastern Museum, at the expense of £25,000, Parliament granting £15,000 in aid thereof. The re-arrangement of the specimens was completed, and the additional portion of the building opened to visitors in 1855.

The Hunterian Collection was estimated to consist of 13,682 specimens, distributed under the following heads:—

Physiological Department, or Normal Structures.

Physiological preparations in spirit	3745
Osteological preparations	965
Dry do.	617
Zoological do.	1968
Fossils :—	

Vertebrate	1215
Invertebrate	2202
Plants	292

Pathological Department, or Abnormal Structures.

Preparations in spirit	1084
Dry preparations (including bones)	625
Calculi and conerctions	536
Monsters and Malformations	218
<i>Microscopic preparations</i>	215

Of the additions by which the size and value of the Collection have been so materially increased since it came into the possession of the College, very many have been presented by Fellows and Members of the College, and other persons interested in scientific pursuits. Among the largest contributions from this source have been the Collection, consisting of 847 specimens, presented in 1811 by Sir William Blizard, and a valuable series of Pathological specimens presented in 1851 by Sir Stephen L. Hammick. At the same time the Council of the College have availed themselves of various opportunities as they have occurred to purchase specimens of interest, especially at the dispersion of private anatomical and pathological museums, as that of Sir A. Lever in 1806, of Mr. Joshua Brookes in 1828, of Mr. Heavside in 1829, Mr. Langstaff in 1835, Mr. South in the same year, Mr. Howship and Mr. Taunton in 1841, Mr. Liston in 1842, Mr. Walker in 1843, and, deserving of especial mention on account of the great number and value of the specimens acquired, those of Sir Astley Cooper in 1843 and Dr. Barnard Davis in 1880.

The Histological Collection, of which the 215 Hunterian specimens (prepared by Hewson) constitute the nucleus, was chiefly formed by the late Professor Quekett, with considerable additions by purchase from Dr. Tweedy J. Todd, Mr. Nasmyth,

and Professor Lenhossek. It now contains upwards of 12,000 specimens, all arranged and catalogued so as to be readily available for reference.

The superintendence of the Museum is confided by the Council of the College to a Committee of its Members, which Committee has held six meetings during the last year.

A summary of the progress made in the preservation, arrangement and augmentation of the Collection will be found in the following Report.

ANNUAL REPORT OF THE CONSERVATOR TO THE MUSEUM COMMITTEE.

(Presented July 1st, 1884.)

ALTHOUGH no longer holding the office of Conservator of the Museum, it is necessary that I should submit the following Report to the Committee, as my successor has not yet entered upon his duties, and the additions recorded in the list have been nearly all received during my period of office.

The circumstances which led to my retirement may best be indicated by quoting the following letter addressed to the President and Council of the College, and read at the Council meeting of the 13th of March :—

“It is with much regret that I inform you that I shall be obliged, at the termination of the present quarter, to resign the office of Conservator of your Museum, which I have held for upwards of twenty-two years.

“I have been appointed by the Trustees of the British Museum to the post of Director of the Natural-History Departments of their Collection, an office the importance of which has been considerably enhanced by the separation of those Departments from the old Museum, and their location in a new and distinct building at South Kensington. Although this appointment was unsought by myself, I feel that I ought not to decline the responsibilities of an office, the proper fulfilment of the duties of which may exercise a considerable influence upon the progress of the Natural History sciences in this country, although by so doing I am compelled to sever my connection with an institution with which it has for so long been my privilege to be associated. I beg to assure you, however, that the interest I have always felt in the Museum of the College will never be abated, and that I shall do all in my power to assist my successor in the proper discharge of his duties, and especially in remedying the many imperfections which still remain in the arrangement of the collection, of which I am, perhaps, more conscious than any one else.

“I cannot formally take leave of you without adding that my association with the College has been in every way a most happy one for myself,

especially as it has afforded me the great advantage of coming into close personal intimacy with all the ablest and best among the members of my profession. To the Council, individually and collectively, I shall always feel deeply grateful for the uniform kindness and support I have received from them. To my colleagues in other departments, and especially to your secretary, Mr. Trimmer, I beg to express my thanks for having on all occasions cordially assisted me in carrying out the work I have had most at heart; but it is especially to the warm co-operation and good feeling of all those who have worked with and under me in the Museum that any improvements that may have been effected in its condition during my tenure of office are mainly due."

In accepting the resignation the Council passed a resolution speaking of my connection with the Museum in terms for which I feel deeply grateful.

During the past three months the business of the Museum has been efficiently carried on by Dr. Garson and Mr. Eve, with such occasional assistance as I have been able to render in consequence of being permitted by the Council to continue in residence.

At a special meeting of the Council held on the 19th of June, Mr. Charles Stewart, Curator of the Museum and Lecturer on Comparative Anatomy at St. Thomas's Hospital, was elected to the office of Conservator of the Museum.

For the information of the members of the Council as well as for the use of my successor, I have prepared a Memorandum on the Present Condition and Future Requirements of the Museum, which was presented to the Committee on the 1st of April and ordered to be printed. The most pressing needs of the Collection at present are the completion of the Catalogue of the Osteological Series, comprising the Birds, Reptiles, Batrachians, and Fishes, and when this is accomplished a new edition of the Catalogue of the Physiological Series must be taken in hand.

In January last was published the second part of the 'Catalogue of the Specimens illustrating the Osteology and Dentition of Vertebrated Animals Recent and Extinct,' containing the Class Mammalia other than Man. The preparation of this work has occupied intervals of leisure for many years past, latterly with great assistance from Dr. Garson. Much time has been consumed in searching for the history of the specimens in old documents, letters, and publications, often with unsatisfactory results; and the determination of the most correct nomenclature, a matter of paramount importance in such a Catalogue, has involved an amount of labour which only those who have been engaged in a similar pursuit can appreciate. It may be hoped, however, that some advance has been made in this work towards that most desirable end—a fixed and generally recognized nomenclature of all the best-known species of Mammals, and that the bibliographical references, as well as the information it contains regarding the

dentition and number of vertebræ of the skeleton, will render it of more general use than a mere list of the specimens would have been.

The laborious process of cleaning, renumbering, and arranging all the specimens in accordance with this Catalogue is still going on, and will probably not be completed before the end of the present year.

Among other valuable additions to the series of Human Osteology may be specially mentioned a series of skulls and skeletons of Natives of Tierra del Fuego, presented by the Rev. Thomas Bridges, of the South-American Missionary Society.

The Physiological Series has been enriched by a large series of brains of Mammals, presented, as on so many former occasions, by the Zoological Society. Some important additions have also been made to the series illustrating Human Anatomy, especially dissections showing the distribution of certain portions of the nervous system, by Mr. W. Pearson, who has also contributed to the Osteological Series several preparations of the more or less cartilaginous skeletons of Amphibia, preserved in spirit.

During the past year the Third Volume of the new edition of the Pathological Catalogue, by Sir James Paget, Dr. Goodhart, and Mr. Alban Doran, has been printed, and will shortly be ready for distribution. As in the case of the former Volumes, this has been revised by Mr. Eve, who has considerably modified the arrangement of several of the Series, and has added to the value of the Catalogue by making microscopic examinations of many of the rarer specimens. The third Volume, consisting of 541 pages and descriptions of over 1400 specimens, comprises the Series of Injuries and Diseases of the Teeth, Tumours of the Jaws, Injuries and Diseases of the Alimentary Canal, including Hernia and Displacements, Injuries and Diseases of the Liver and Gall-Bladder, Ductless Glands, Circulatory and Respiratory Organs.

An unusually large number of specimens have been added to the Pathological Section. The Series of Diseases of the Teeth, previously small and incomplete, has received an addition of over 130 specimens, which were collected from various sources, and many of them presented, by Mr. Alfred Coleman. These specimens arrived too late for incorporation in the previously existing collection, but have been described and included as an Appendix in the forthcoming Volume of the Catalogue. Some interesting specimens have also been selected from Sir Erasmus Wilson's collection, which he generously placed at the disposal of the College.

Among other notable contributions are a very valuable specimen of actino-mycosis affecting the lower jaw of a heifer, and two examples of the same disease of the tongues of oxen, which were presented by Mr. Alfred Lingard.

Important acquisitions to the Drawings have been made by the presentation by Dr. Arthur Farre of the valuable collection of water-colour and other drawings made by his father, the late Dr. John Richard Farre, and by the gift of a series of original water-colour drawings illustrating the late Mr. Robert Ceely's researches in Vaccinia and Rinderpest, presented by his brother, Mr. J. H. Ceely.

The work of revision of the Pathological specimens has been continued, seven hundred having been remounted during the year.

Upon the conclusion of his course of Lectures on the Surgery of the Urinary Organs, Sir Henry Thompson presented to the Museum the Cabinet containing his very important collection of Calculi, the result of 812 operations by lithotripsy and lithotomy, all neatly mounted in glass capsules, and every specimen accompanied by authentic details of the case. The value of this series as illustrating an episode in the history of Surgery needs no comment; but its late arrival, after this Report was in the press, prevents a more detailed description of it upon the present occasion.

THE LIBRARY.

THE formation of a regular Library may be said to have commenced in the year 1801, at which time and in succeeding years presentations and bequests of books, often in considerable numbers, were made to the College—the principal donors being Dr. Baillie, Sir Everard Home, Sir Charles Blicke, the widow of Mr. Sharp, Sir Ludford Harvey, Dr. Fleming, Mr. Cotton, and Mr. Long. The Court of Assistants also directed from time to time the expenditure of small sums of money for the purchase of books, and eventually voted a sum of £100 per annum for this purpose. Sir Charles Blicke, in the year 1816, invested the sum of £300, the proceeds of which sum were to be devoted to the same object. Some of the purchases thus made were considerable, as in the cases of the Libraries of Mr. Pitt, Mr. St. Andre, and Sir Anthony Carlisle, and books of importance were added at the recommendation of the Conservator of the Museum and others. In this way a Library of considerable value was gradually accumulated, but it was only accessible to a limited number of persons. In 1827 active steps were taken to render it more generally useful, and with this object catalogues and extensive lists of desirable acquisitions were ordered to be prepared. Large sums of money were also expended during this and the ensuing two years, amounting in the aggregate to nearly £6000. A Librarian was appointed, and in 1828 the Library, then containing 10,500 volumes, was thrown open to members of the College, and all other persons engaged in the pursuit of natural science were freely admitted. This large collection, thus opened, offered great facilities to the studious. By means of extensive additions, the collection was well nigh complete in works on Medicine and Surgery, both domestic and foreign, whilst it was also very rich in publications relating to the accessory sciences. The transactions of Academies and Societies, and the collection of periodical publications in general, owing to their completeness, and the difficulty with which access can be obtained to this class of literature elsewhere than in large libraries, formed a valuable feature. The maintenance of the Library from that time to the present has involved a very considerable expenditure of the funds of the College. It has been the object of those to whose care it has been confided to ensure the completeness and excellence of the collection, and great facilities of reference have been provided by the preparation of additional catalogues and indexes of subjects. During the past year there have been added to the Library 564 volumes, including 165 works and 247 tracts, pamphlets, essays, reports, and theses. The entire collection now consists of 39,761 volumes, comprising 15,516 works, and 40,000 tracts, pamphlets, essays, reports, and theses.

The following is a list of the Donations that have been presented to the Library during the year 1883–84, viz. :—
